FLOOD IN BALTIMORE STREETS

Cloudburst Causes Stream to Overflow
No Lives Reported Lost.

Baltimore, July 7.—The flood last night which was caused by the overflow of Jones' Falls, a stream which runs through the central part of Baltimore and which resulted from a cloudburst at Timonium, in Baltimore county has completely subsided, the water in the falls having fallen almost as quickly as it rose.

In the city no lives were lost and the damage will be confined to the streets in the vicinity of the falls.

There are many machine shops in the vicinity, the contents of which have been damaged, but there was no very heavy single loss and the total loss is roughly estimated at \$50,000. On the surface the flood left a layer of mud from 6 to 12 inches deep which is being rapidly removed by the street cleaning department. Hundreds of cellars were left in the same condition.

In the country north of the Baltimore the country people were panic-stricken for several hours and many fled for their lives. The suburban towns of Mount Washington, Lutherville, Cockeysville, Melvale and other points, were hemmed in until an early hour this morning. The intervening farm lands were inundated, crops were swept away and small buildings all along the falls from Mt. Washington to the Pennsylvania railroad bridge.

Scores of small farmers were compelled to abandon their houses and flee for their lives in some instances their homes and cattle and wagons being carried away in the flood.

British Flag Is Lowered.

Rochester, N. Y., July 7.—A protest has been filed with the Canadian minister of marine by Captain Simmons, of the Canadian schooner Accacia, because the port collector Duane Bump, compelled him to lower the British flag on his vessel in the harbor at Charlotte on July 4. Collector Bump was informed that the Accacia had floated a large union jack on the morning of the Fourth and ordered Captain Simmons to haul it down saying it was an insult to the national holiday. Simmons refused and threatened to shoot the collector if he boarded his vessel. Finally Simmons lowered the flag when threatened with refusal of his clearance papers.

To Bridge Straits of Karquinez.

San Francisco, July 7.—As the result of a visit made yesterday by Secretary Taft to the Benicia, the straits of Karquinez, probably will be bridged by the Southern Pacific. Secretary Taft announced his approval of the project. He said: "The volume of transportation business has grown to such an extent that the bridging of the straits is imperative. The only problem is to erect a bridge that will be substantial enough to stand the traffic which may be put on and at the same time not interfere with navigation of the rivers. I am certain that such a bridge can be constructed."

Weak Stomach.

A weak stomach is most frequently caused by the overworked and exhausted nervous system.

The power that runs the stomach is the nerve force sent to it from the brain through the nerves. When the nerves are weak or exhausted the supply of energy is insufficient and the action of the stomach is impaired, and results in imperfect digestion—dyspepsia.

Dr. Miles' Restorative Nerve increases nerve force. It strengthens and builds up nerve tissue, gives vigor to the nerves and muscles of the stomach; this produces a healthy activity.

Nervine allays the inflammation, heals the membranes, and makes the stomach strong and healthy. There is nothing that so quickly gives energy to the whole system as Restorative Nervine.

"I can't say enough for Dr. Miles' Nervine. I don't know what it will do for others, but it certainly cured me of stomach trouble, and now I am as well as I ever was. Two physicians failed to relieve me, but in three or four days after taking Nervine I was much relieved. Four bottles made me a sound man, at the cost of \$4.00."

JAMES E. HART, Detroit, Mich.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
